

Capture the Clean Power of the Sun with Our Custom Solar Solution.

Advanced Power is committed to designing and installing **high-quality** and **reliable** residential and commercial solar systems. Our electrical engineers and certified solar installers are **solar solutions experts** and we have designed and installed **over 100** state-of-the-art solar systems in California. Join the growing number of **satisfied solar owners** who are well on their way to **energy independence**, significantly **reducing their carbon footprint** and **avoiding future electricity rate increases**.

Why choose Advanced Power

Experienced professionals

Our electrical engineers and certified solar installers have **over 25 years** of residential and commercial solar system experience.

High-quality products

We install Sharp® solar panels and components, the **#1 name in solar** system technology products. The solar panels come with a **25 year warranty*** to preform under extreme conditions.

Professional service

We streamline the solar design and installation process so your transition to solar power is seamless and hassle free.

Detailed site analysis

We use the latest solar analysis technology to analyze your site and design the best **solar solution** for your home or business.

Power generation guarantee

You can have peace of mind your solar system will preform as designed with our free **5-year power generation guarantee***.

System monitoring included

Monitor your systems real-time performance through Fat Spaniel Technologies® Internet-based software.
